Hi,

January 2017

Welcome to our latest Catalogue & pricelist. We hope that you will get a lot of use & knowledge out this new layout. We have tried to make it more user friendly than in previous versions.

If you are a new or an existing customer I would like to take the time to welcome you to Global Tapware. We have been trading now since 1991 and we always put the customer / end user first in all our endeavours. It is important to us that issues do not arise and if they do, we deal with them straight away, with that in mind as the owner of the business I take great pride in saying that from annual 'Watermark' Audits it is shown time and again that across all product groups we only have .5 to 1% of warranty issues. We aim to keep it that way, as I know nothing is 100%. So take it as a given you are buying the best of the best.

Regards

Mark McQueen

General Information

This publication is for general use only, any pricing and information may change at any time. It would always be best to check prices with the office before placing orders. Due to the nature of importing components from the USA we are governed by the exchange rate & freight charges, as such we reserve the right to alter prices with out notice. We do our best to only having one price change per year.

All prices are RRP (excluding GST) based. Exceptions are where products are coded 'GZ', which are a net price, or a 'GFZ or GZX', in which case these indicate a restriction of discounting. These codes over-rides any special price agreement we may have with your company.

We reserve the right to make changes to this 'Catalogue / Pricelist' without notice.

Warranty

	Product	Period from Installation Date.
1	Fisher Pre Rinses	36 months
2	Fisher Universal KITS	36 months
3	Stainless Faucets	36 months
4	RinseMaid Pre Rinses	18 months

14	Combi Kits	12 months
15	Spare Parts	12 months
16	Special Design Hoses	12 months

All Consumer rights are implied and governed by State / Federal Authority.

WE WILL NOT GIVE WARRANTY ON THE FOLLOWING :-

- 1** Bad Installation work by tradesman or other. Our determination is binding on this and we will not pass warranty unless it is proven beyond doubt that fault lies with the product. This has been bought about by plumbers not carrying out correct installation as in accordance with our instructions. i.e. using a liquid sealant in place of a 'Quality Thread Tape', or installing the Spring Guard upside down. The curve MUST always be at the Top, only straight end to be fitted to Spring Retainer.
- 2** Abuse of the product by the end user. Using the product outside of the design of the product.
- 3** Where a third party has decided to install or use one of our products outside the design of said product. Unless we have been involved in the decision we will not warrant or take back the product.
- 4** Resold or Used second hand product.

In the case of a genuine warranty we will carry out repair or replacement of the product by means of using a contractor or carry out the work ourselves. We will do our best to have the work done within 2-5 days if not sooner. However, when using a contractor we cannot determine the time, we are governed by them.

***Please confirm with Global Tapware for pricing of projects. This pricelist should be used as a guide only.**
