Diversey Care

Diversey

dify

The intelligent solution
for small dishwash
machines

Simple and reliable

Dify delivers all the performance of professional dishwashing multi-component systems in one easy step, combined with the benefits of a controlled dosing system without the need to install any equipment (1).

Convenient and intelligent

Just add one Dify sachet anywhere in your machine wash bath (2) and continue washing up to an average of 15 wash cycles (3).

The J-Watcher dosing alert takes care of the washing performance, allowing for continuous, long lasting results.

The red flashing light of the J-Watcher tells you when you need to add another sachet of detergent (4).

The unique combination of J-Watcher and Dify detergent bring you the ultimate dishwashing solution.

Economical

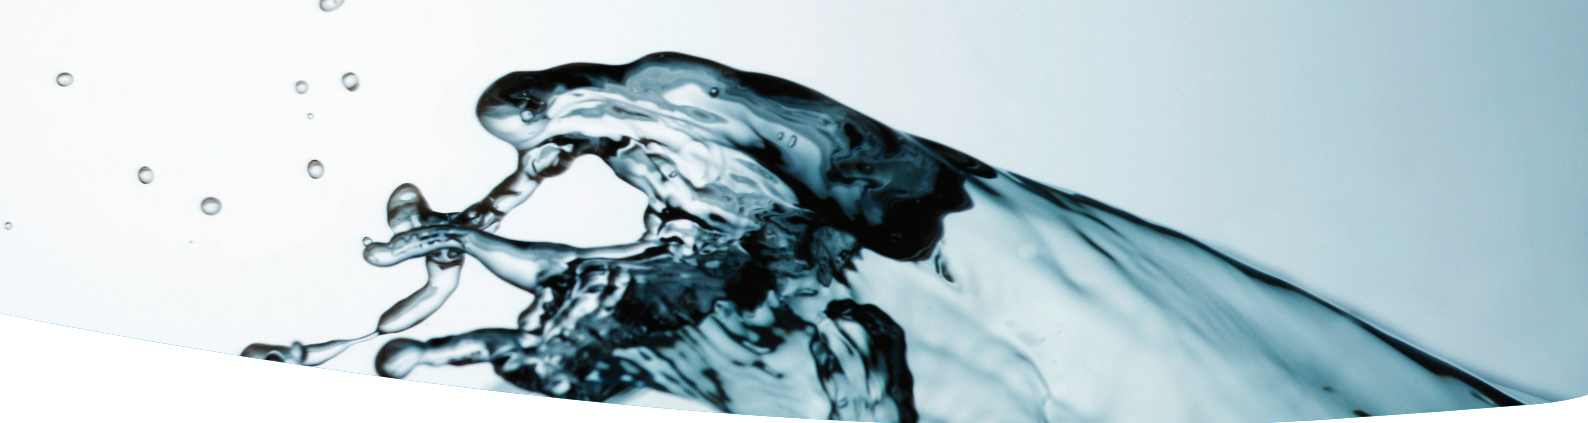

The sachets included in a single, compact Dify pack can handle up to an amazing 600 wash cycles.

The compact Dify pack takes up almost no space in your kitchen and Dify technology is all inclusive, so there is no need for a separate drying agent.

Safe

Safe to handle, the sachet dissolves in the dishwasher preventing any contact with chemicals (5).

The ultimate unique combination: Dify™ detergent and the J-Watcher™ dosing alert.

6 in 1 performance

Initial dose: The fast dissolving sachet and powder ensure great cleaning results from the start.

Detergent: Using the latest technology, Dify is able to deliver high performance cleaning results.

Rinse-aid: The built-in rinse-aid improves fast drying.

Anti-scaling: The added salt function controls the hard water scale in the dishwasher.

Bleach: Excellent on coffee and tea stains.

Soft metal safe: Dify, under normal use conditions, is safe on metals such as aluminium.

Total simplicity, full result!

Dify sachet + J-Watcher guarantee you continuous ware washing results. Just add one sachet into the machine and keep washing for up to 15 wash cycles.

The J-Watcher dosing alert will tell you when to add another sachet.

The well-being of people everywhere depends on a sustainable world. Sealed Air's Diversey Care Division offers solutions for infection prevention, kitchen hygiene, fabric care, building care and consulting. Our solutions protect brands, deliver efficiency, improve performance for our partners in health care, food service, retail, hospitality and facility services. Our leading expertise integrates product systems, equipment, tools and services into innovative solutions that reduce water and energy usage and increase productivity. By delivering superior results, we help create profitable sustainable enterprises for a cleaner, healthier future.
