

CLAX[®] 100

22A1

Concentrated Laundry Detergent

Description

Clax[®] 100 22A1 contains a blend of surfactants and fluorescent whitening agents and is specially formulated for use with liquid alkalis to enhance the removal of oil and grease from white or coloured polyester-cotton garments, table linen, greasy shop towels and wipes, and oil and grease stained linen supply work.

Features

- Clax[®] 100 22A1 contains a blend of surfactants and fluorescent whitening agents. Used in conjunction with liquid alkali such as Clax[®] Alegro 1AL1 it enhances the removal of oil and grease from medium and heavily soiled items.
- In addition Clax[®] 100 22A1 contains an optical brightener for application at all temperatures, which is stable in the presence of chlorine bleach.

Benefits

- Excellent performance on greasy and oily items.
- Good foam control properties thus optimal use of washer mechanical action.
- Ensures long-lasting whiteness.

Application areas

- Healthcare
- Lodging
- Government
