CLAX®

Fabric Softener

5UL1

## Fabric Softener

### Description

Clax® Fabric Softener 5UL1 is a fabric softening liquid specially formulated for use in commercial and on-premise laundries. The product is suitable for application on most types of fabric and can be manually or auto-dosed.

### Features

Clax® Fabric Softener 5UL1 is a fabric conditioner based on cationic quaternary ammonium salts. In the wash solution, these positively charged cationics, adsorb to the negatively charged surface of fabrics. Once adsorbed onto fabric the cationic has a lubricating effect. During the drying process, this prevents interlocking of individual fibres and build-up of static electricity (especially on synthetic fibres). In addition lubrication facilitates ironing/calendering. The product has also been formulated with perfume, which leaves a pleasant smell on fabric.

Clax® Fabric Softener 5UL1 can be used for most types of fabrics, but is particularly effective textured fabrics such as towels. It also imparts a smooth, silky feel on woven or flat knitted fabric.

### Benefits

- Good softening of many types of fabric (towels, sheets, wool, delicate articles etc).
- Prevents build-up of static electricity on synthetic fabrics.
- Delivers a pleasant residual smell.

### Application areas

- Healthcare
- Lodging
- Government
- Commercial
- Laundry

### Directions for use

Clax® Fabric Softener 5UL1 should be added into the final rinse of the wash cycle. Avoid pouring directly onto the fabrics. Recommended dosage is 2ml/Kg of dry goods. Do not use fabric softener where iron content of water exceeds 0.1ppm as fabric yellowing may occur.

Rinse with potable water at the end of the laundering process.

MPI Approved C33 (All animal product except dairy).

### Technical data

|            |                   |                         |           |
|------------|-------------------|-------------------------|-----------|
| Appearance | Thin white liquid | Relative density (20°C) | 1.0       |
| Dilution   | 2ml/kg            | pH (neat)               | 3.0 – 4.0 |

### Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

### Product compatibility

Clax® Fabric Soft should not be used on articles made of micro polyester fibres such as cleanroom garments and water repellent theatre linen and microfiber cleaning. This product is compatible with most Clax® fabric washing products.

### Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available online at [www.diversey.com](http://www.diversey.com) or by calling Toll free: Australia, 1800 647 779 or New Zealand, 0800 803 615.
